Dedicated junior software developer, making ideas come to life with a couple of lines of code at a time. Client-focused and web development experience with strong communication skills.

TECHNICAL SKILLS

- ASP.NET Web API, C#/.NET, SQL, HTML, CSS, JavaScript, Vue.js, ADO.NET, Table Design, E/R diagrams, Unit Testing, Integration Testing, Unix, Git, Visual Studio
- Web-Based Development, React, Node, Express

TECHNICAL EXPERIENCE

- **Candy Store Cash Register -** With the help of C#. My partner and I worked on a pair programming project where we've been asked to develop a cash register application, This application will be used when making sales to corporate customers. Keeps track of inventory, sales, and money received or returned.

- **Yuri Meals** - With the help of HTML, CSS, JavaScript, React, and Node.Js I was able to create this web app where you can order from our very limited food options where when ready to place an order you are requested to input your information for delivery which is then received at a firebase real-time database.
